SUMMARY

Highly motivated computer networking graduate with passion for contributing to an innovative web development project team where I can apply my analytical thinking, creative insights, leadership qualities and strong communication skills.

PROFESSIONAL EXPERIENCE

Founder | eCommerce Platform https://fruntt.com   **May 2022 - Present**

● Built frontend primarily using ReactJS, utilizing libraries such as Redux for making queries, Tailwind CSS for efficient and consistent styling, and Stripe elements for properly handling payment information.

● Built backend using NodeJS runtime environment along with ExpressJS web framework. Various defined endpoints allowed application of CRUD functionality. User authentication handled with JSON web tokens.

● MongoDB database, email transactions handled with Postmark, images stored in S3 bucket (aws), payments processed with Stripe

SEO Assistant, Co-op Rise Marketing, Boston, MA   **July 2021 - Jan 2022**

● Conducted keyword research using SEMRush for use in client blogs and emails to drive SEO scores.

● Updated and maintained clients websites using multiple services like Wordpress and Squarespace.

● Scheduled and conducted email campaigns using Mailchimp and Privy.

● Participated in meetings with the CEO to strategize frontend web development.

Web Developer Kure Creative, Boston, MA   **June 2020 - Sep 2020**

● Created and maintained small pages and forms hosted on the web to drive engagement during clients' promotional campaigns.

● Improved productivity and efficiency of business for clients via social media campaigns.

● Contributed to weekly team meetings to develop strategies to drive social media engagement and improve promotional content.
